

Meeting Notes: MET GALA

Positive Reactions:

- I enjoy how bright and energetic the entry page is. Very captivating.
- The timeline works really well for the themes. Really excited to see what this ends up looking like.
- Idea of having a video is a really interesting idea, could work really well but might be a little tricky.
- Selection of imagery is great! Really captures the excitement of the event, maybe try to get photos from past years too! The looks you selected are mostly from CAMP :)
- I think the first two versions work best, the third seems too complicated!

Critiques:

- I am not sure if the current font works super well
- The subsections look a little similar. Issues is formatted just like Themes and Best Looks and History and I think they should all be a little different.
- Dont worry about sticking with one outline if you cant make it responsive, think about a back up plan for the timeline!
